

MESSENGER FINANCIAL MANAGEMENT COOKIE POLICY

Introduction

Cookies are small amounts of information which we store on your computer when you access our website. Cookies allow the website to function properly and make it easier for you to log on and to use the site during future visits. They allow us to monitor website traffic and to personalise the content of the site for you. Without the setting of cookies our website would be unable to function correctly and your experience would be adversely affected.

We use the following cookies:

- **Strictly necessary cookies.** These are required for the operation of our website. They include, for example, cookies that enable you to register and log into secure areas of our website.
- **Analytical/performance cookies.** These allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily. Our website uses Google Analytics cookies which collect anonymous information, which cannot be used to identify any individual person.

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie	Name	Purpose
Google Analytics	Analytical performance cookie	This cookie is used by the website to gather statistical information about visitors to the website. All information is anonymous to the user and allows us to monitor and improve performance of the website.

You can prevent cookies being set when you use our website by altering your web browser to reject cookies. For further information on how to block cookies please consult the documentation for your web browser. This feature is generally part of your “privacy” options. However, if you intend to block the use of cookies in this way then your use of this website will be impaired.
